Winter at the Northern Comfort Lodge

Experience Code: DV8AW1

Northern Comfort Lodge

The Northern Comfort Lodge is a spacious, comfortable, traditionally-constructed Swedish log cabin located on the shore of Lake Revsund in Jämtland. The lodge has everything you might expect of an idyllic Swedish log cabin – a beautiful lakeside/forest location, spacious, airy living area, private sauna and a wood-burning stove.

But the lodge also has a few surprises – including a larger wood-heated outside sauna and hot-tub "bathing barrel" right by the water's edge!

Whatever you are looking for from a log cabin holiday - be it adventure, a chance to socialise with friends or an active family break for larger families or two families travelling together, the Northern Comfort Lodge offers the ideal solution for groups of up to 8 persons. Accommodation at the lodge is divided into four bedrooms, each sleeping two persons, with a large open-plan kitchen and living area, decorated throughout in traditional style.

Lynx

Lynx is a new cabin for up to 6 persons completed in December 2008, furnished and decorated to a similar standard to the Northern Comfort Lodge. Lynx is an excellent choice for a romantic log cabin holiday for couples or as a base for families or small groups. The cabin has 2 x 2-person bedrooms and a sleeping loft for an additional two persons. The cabin has two bedrooms each sleeping two persons. One bedroom can also accommodate an extra bed. Lynx is just 45m from the lake, is fully equipped with kitchen, shower and WC, sauna and hot tub and has a wood-burning stove.

In winter, Jämtland lies thick with snow. The lakes freeze over and the landscape becomes a magical winter playground. If it is relaxation you are looking for, the lodge is an excellent base to simply enjoy the quiet and beauty of the snow-clad forest (perhaps while the children go off to build snowmen or make snow-angels!). If you would prefer more adventurous experience, there is a wide range of both guided and self-guided activities available, including snowshoeing, cross-country skiing and ice fishing. Dog sledding tours in the surrounding area are also available. You can choose to drive your own sled (a real winter adventure!) or for families with children, you can relax on the sled while an expert local musher guides you through the winter landscape.

A stay at the Northern Comfort Lodge or Lynx is an uplifting, close-to-nature experience suitable for all ages and levels of ability. The cabins are normally available for booking for 8-day periods Saturday-Saturday. Outside high season other start days and durations may be possible. Please contact us to discuss your requirements.

Equipment/clothes needed:

NB: We advise you not to buy equipment or clothes for your trip or to incur other non-refundable expenses such as flights until you have received confirmation of your booking from us in writing.

Packing list (recommended):**Toiletries:**

Soap, toothpaste, plasters, moisturiser, sun-cream, painkillers, blister tape.

Clothes:

Take clothes you are not afraid to damage. Quick-drying materials are best. Bear in mind that jeans and sweatshirts are difficult to dry. Pack warm winter wear (jacket and trousers), boots, shoes, a pair of warm socks, something to cover your head, a pair of gloves/mittens, a warm sweater, sweatshirt, T-shirt, shirt, trousers, long underpants, underwear and something to sleep in.

Additional:

Camera, binoculars and some good books.

Health requirements/experience:

You should be in good general health. This experience is suitable for the whole family.

Group size

Minimum 1 adult. The lodge can accommodate up to 8 adults.

Information about the area:

Jämtland lies in the north-western part of Sweden, bordering Swedish Lapland to the north and Norway to the west. It is the second-largest province in Sweden, making up just over 8% of the country's total area but with an average population density of just over 3 persons per square kilometre. More than two thirds of Jämtland's population lives

in the small number of urban centres in the province, making rural Jämtland very sparsely-populated and ideal for wilderness activities.

Common Sense and the Right of Public Access

Do not disturb, do not destroy – that is the basic principle of Sweden’s right of public access. It is not an unrestricted right. Here, you can read about the rules that apply.

The Swedish right of public access is not a law, nor is it an absolute right. It may rather be regarded as an opportunity, one that makes it possible for everyone to enjoy the countryside. But it is an opportunity that requires responsibility, consideration and good judgement. Rules describing the kinds of consideration that must be shown are incorporated into Sweden's environmental law, and apply to everyone who exercises the right of public access.

Respect others’ privacy

You may travel through the countryside on foot, bicycle, horse or skis, and temporarily remain in one place, as long as there is no risk that your presence or activities will damage crops, tree plantations or other sensitive areas. But you must respect the privacy of others, and you may not cross or intrude upon private property.

Camping

It is permitted to set up a tent for a day or so on ground that is not used for agriculture and is far from the nearest dwelling. The closer to a residence and the greater the risk of disturbing others, the more important it is to ask the landowner for permission.

Do not litter

All sorts of littering are forbidden in the countryside. A cigarette butt in a dry summer forest can destroy resources worth millions. Glass, tins and bottle caps harm both humans and wildlife, and plastic bags cause great suffering to animals that ingest them. For this reason, bags full of litter should never be left beside rubbish bin if it happens to be full.

Blossoms and berries

You may not take such items as twigs, branches or bark from living trees, including birches. Obviously, you may not take entire shrubs or trees, either. But you are allowed to pick wild berries, flowers and mushrooms, as well twigs and branches that have fallen to the ground. Certain flower species are so rare that they risk becoming endangered. These species are protected and may not be picked. Information about them is available from county administrative boards. Orchids are protected throughout Sweden.

Protected natural areas

Protected natural areas, including nature reserves and national parks, usually have special rules that restrict the right of public access.

More information on the right of public access can be found on our website under About Sweden or on www.allemansratten.se
