Up Sweden & Turkey with a paddle

Sweden, what with its many archipelagos offering hours of island exploring, is ideal for travel by kayak. Without traveling beyond the capital Stockholm it's possible to enjoy days of kayaking, camping on whichever tiny island takes your fancy and appreciating the landscape and wildlife up close. UK company Nature Travels are Sweden experts, and offer a range of styles of trip from a one day guided tour around Stockholm (£103) to a 7-day self guided trip in the High Coast (£423) where you will be given maps, equipment and left on your merry way to discover the UNESCO World Heritage area for yourself.
